Pre-K–2 Program: Curriculum Content Overview

What the Program Teaches

ShalomLearning's Pre-K–2 curriculum is a values-based Jewish education program that follows the natural rhythm of the Jewish calendar year. Rather than teaching Jewish history, holidays, and values as separate units, each weekly lesson pairs a single Jewish value — gratitude, courage of the heart, welcoming guests, respect — with a related holiday, Torah story, blessing, or tradition, so students experience Jewish values as lived practice rather than abstract ideas. The curriculum moves through the year in calendar order: beginning with the fall High Holy Days and Sukkot, continuing through Chanukah, Tu B'Shvat, Purim, and Passover, and closing with Shavuot in late spring.

The program is pluralistic, welcoming students and families from every Jewish background and level of observance, and every lesson builds Hebrew vocabulary alongside its values content.

How the Content Grows by Grade

Pre-Kindergarten & Kindergarten (combined class)

Lessons introduce Jewish values and holidays through story, music, movement, and hands-on crafts, building a simple vocabulary of Hebrew words and concrete, sensory experiences of each value — tasting the honey and apples of Rosh Hashanah, building a model sukkah, or making a tzedakah box for Chanukah.

Grade 1

Lessons add comparison, discussion, and “why” reasoning. Students begin applying values to their own choices and experiences, for example, comparing the rhythm of Shabbat to an ordinary day, while continuing to build on the Hebrew vocabulary and holiday knowledge from Pre-K/K.

Grade 2

Lessons introduce deeper ethical and theological framing, including concepts like *b'tzelem Elohim* (being created in the image of God), and connect Jewish values to Israeli art, music, and literature. Students are encouraged to see how values from earlier in the year, like gratitude and respect, build on and reinforce one another.

Values & Holidays Covered Across the Year

Each of these is treated as its own lesson (many spanning two weeks), giving students repeated, age-appropriate exposure to the same core themes every year, with increasing depth:

- Hakarat Hatov (Gratitude) — opening unit
- The fall holidays: Rosh Hashanah, S'lichah, Yom Kippur, Hachnasat Orchim, Sukkot, Simchat Torah
- Bikkur Cholim (Visiting the Sick) and Todah (Giving Thanks)
- Chanukah & Tzedakah (Giving / Rededication)
- Shabbat (Day of Rest)
- Ometz Lev (Strength / Courage of the Heart)
- Tu B'Shvat and Bal Tashchit (Birthday of the Trees / Do Not Waste)

- Eretz Yisrael (Land of Israel)
- Shalom Bayit (Peace in the Home)
- Purim
- Hashavat Aveidah (Returning Lost Objects)
- Kavod (Honor / Respect)
- Passover (Exodus / Freedom)
- Yom Ha'atzmaut (Israel's Independence Day)
- Shavuot (Festival of Weeks) — closing, year-in-review unit

Format

Classes meet live, online, in small groups (8–10 students) via COPPA-compliant video classrooms. Pre-K and Kindergarten sessions run 40–45 minutes; Grade 1 and Grade 2 sessions run 45 minutes. Because the program serves military families around the world, students are grouped into regional time-zone cohorts.

Curriculum Overview, Course Descriptions, and Scope & Sequence

2026–2027 Program Year

[Final program calendar](#)

Program Overview

The Joint Religious Education Program (JREP) delivers live, synchronous, online Jewish education to the children of U.S. military families wherever they are stationed. ShalomLearning, in partnership with JWB Jewish Chaplains Council, a signature program of JCC Association of North America, provides the programming for students in Pre-K through Grade 2. The Program, rooted in Jewish values and the Jewish holiday calendar, pairs a value (like gratitude, or strength of heart) with a related story, holiday, text, or tradition. ShalomLearning is a pluralistic curriculum welcoming families from all backgrounds.

Program Structure

- Term: October 2026 – May 2027, delivered live on Sundays via COPPA-compliant Zoom classrooms.
- Up to 24 live sessions per the fully executed MOU Appendix A program calendar (Oct 18, 2026 – May 23, 2027).
- Four regional scheduling cohorts — Americas (EST & PST), Europe/Africa, and Asia/Pacific — based on family time-zone and scheduling preferences.
- Target class size of 8–10 students (minimum 3 to run); Pre-K and Kindergarten are combined into one class, and Grades 1 and 2 are combined when needed for participation and pacing.
- Pre-K and Kindergarten sessions run 40–45 minutes, using routine, story, music, movement, and hands-on activities suited to shorter attention spans. An adult must be present for Pre-K students (recommended, off-camera is fine, for Kindergarten).
- Grade 1 and Grade 2 sessions run 45 minutes, incorporating discussion prompts and interactive games; caregiver presence is welcome but optional.

Values-Based Curriculum Approach

The curriculum follows the natural progression of the Jewish calendar year, moving from the fall High Holy Days (Rosh Hashanah, Yom Kippur) through Sukkot, Chanukah, Tu B'Shvat, Purim, and Passover, to Shavuot in late May. Each unit anchors a Jewish value or holiday to age-appropriate content: Pre-K/Kindergarten lessons emphasize sensory exploration, story, and concrete practice; Grade 1 lessons add comparison, discussion, and “why” reasoning; Grade 2 lessons introduce deeper ethical and theological framing while incorporating exploration of themes through arts and literature.

Note: because the JWB 2026–27 program launches October 18, 2026, the fall High Holy Days and Sukkot/Simchat Torah units (which fall in September, before launch) are not taught this program year — see the Key Scheduling Note under each Scope & Sequence table below.

Course Descriptions

Pre-Kindergarten & Kindergarten (Combined Class)

Designed for 4-year-olds enrolled in a Pre-K program through Kindergarten-age learners, this 40–45-minute weekly class introduces Jewish values and holidays through story, music, movement, and hands-on crafts. Each session builds a simple vocabulary of Hebrew words and values-based concepts through sensory exploration. An adult should be present throughout for Pre-K learners, and is recommended though not required on camera for Kindergarten. Younger siblings are welcome to sit in with a supervising adult, though instruction is targeted to enrolled Pre-K–K students.

Teachers will communicate with parents prior to the class to be sure they have appropriate supplies. Craft or projects associated with the theme may be done together during class or between class times.

Grade 1

This 45-minute weekly class builds on early foundations with discussion prompts, comparison questions, and interactive games. Students begin connecting Jewish values to their own experiences and choices. Caregiver presence is welcome but optional.

Teachers will communicate with parents prior to the class to be sure they have appropriate supplies. Craft or projects associated with the theme may be done together during class or between class times.

Grade 2

This 45-minute weekly class deepens the same values and holiday sequence with more complex ethical and historical framing, introducing concepts like b'tzelem Elohim (being created in the image of God) and Israel as both a modern state and a historical homeland. Students are encouraged to reflect on how values from earlier units (such as gratitude and respect) connect and build on one another across the year. Caregiver presence is welcome but optional.

Key Scheduling Notes (all grades)

- Already-passed fall holidays are excluded. Rosh Hashanah (Sept 11–13), Yom Kippur (Sept 20–21), Sukkot (Sept 25–Oct 2), and Simchat Torah (Oct 3–4, 2026) all fall before the October 18 program launch, so ShalomLearning's Rosh Hashanah, S'lichah, Yom Kippur, Hachnasat Orchim, Sukkot, and Simchat Torah units are not taught this year rather than covered retrospectively.
- Shavuot falls after the program ends (sundown June 10, 2027), so the closing session (S24) pairs a forward-looking Shavuot preview with a year-in-review, as the curriculum's final lesson is designed to do.

Legend

- Holiday-anchored session (date fixed by the actual 2026–27 Jewish holiday or by the JWB calendar's own notes)
- Flex / enrichment session (review, make-up, or enrichment)
